# MISSION & DNA

**To teach new skills and grow new talent: this has been Istituto Marangoni’s mission for over 80 years now. The school combines advanced teaching methods with the latest developments in fashion, design and art to impart all the knowledge that participants need to fully express their creative self at Istituto Marangoni Milano\*, Firenze, Paris, London, Mumbai, Shanghai, Shenzhen and Miami.**

**This unique blend of academic learning and creative and practical activities is part of Istituto Marangoni’s DNA and is reflected in its four pillars: prestigious locations, highly-qualified teachers, international ethos and Italian style, further supporting the students in finding their place among the stars of the future.**

Not only are Istituto Marangoni schools located in the world’s major cities of fashion, design and art, but they are also nestled at the very heart of their respective fashion, business and creative districts. The schools themselves feature seductive interiors, visually communicating their prestige. This international presence ensures that Istituto Marangoni has its finger on the global pulse, and can offer participants specialist programmes at its various locations, as well as the ability to internationalise their skillset by moving between schools. Alongside this international dimension, Istituto Marangoni’s distinctive approach to teaching fashion, design and art is characterised by a strong focus on Italian style, a key part of the school’s identity, deeply rooted in the country’s legacy and traditions. Synonymous with luxury, excellence and the concepts of quality, beauty, and craftsmanship, Italy is famous worldwide for its unique way of combining creative flair and commercial acumen.

Istituto Marangoni aims to teach and carry forward these distinctive standards of superior quality beyond Italy’s borders, turning participants into professional designers, business movers and artistic influencers. This creative and business-oriented global perspective harnesses the participants’ drive and personal dreams, providing them with the necessary tools to develop innovative designs, cutting-edge products and solutions of the highest quality.

A significant proportion of Istituto Marangoni’s teaching staff is made up of renowned professionals, stylists, designers, photographers, art directors, graphic designers, interior decorators, product managers, buyers, marketing experts and business consultants who both teach and work in fashion, design and art, either in companies and institutions or pursuing their own endeavours. Their pragmatic values, extensive experience and deep knowledge of the current market situation are a fundamental part of transforming participants’ sheer talent into something more effective, practical, and concrete.

Istituto Marangoni is itself part of a group that is a leading international provider of Higher Education, the Galileo Global Education (GGE) group, whose programmes are world leaders in the arts, creation, management and innovation. Many Istituto Marangoni courses are taught in collaboration with other schools that are part of the group, with each institution contributing to synergistically shape the evolutionary journey that turns today’s participants into the fashion, design and art professionals of tomorrow.

The value of a GGE education goes beyond the qualifications that are the benchmark of excellence in their fields; the group’s strong reputation among high-end employers opens the door to internships and employment opportunities in the most desirable companies and connects graduates through the GGE network of alumni.

## The art of new craftsmanship

Known around the world for its art, Firenze needs no introduction. Nevertheless, the city has another story to tell behind its exquisite façade. Art, craftsmanship and Italian excellence are not frozen in time; they grow and evolve, and this is particularly clear at Istituto Marangoni Firenze, where students not only learn how to create, practice, curate and promote art and fashion, but they also get to discover new languages in multimedia and artistic visual communication, exploring cross-pollinations in the fields of digital arts, media and new technologies. At the same time, participants will learn how to make the most of the wealth of materials and textiles that this city has to offer, enhancing them through new concepts of craftsmanship and using them as an inspiration for fashion design. At Istituto Marangoni Firenze, art and culture inspire the design of luxury accessories and jewellery, provide an exclusive setting for new fashion shows, and promote traditional Italian tailoring and innovation in menswear, speaking to a refined, contemporary audience.

**ISTITUTO MARANGONI LONDON**

## Radical creativity merging with responsible luxury

London embodies business excellence, creativity, and innovative thinking, all of which attract a uniquely driven and pioneering elite. Participants at the London School therefore find their own creative voice in this cosmopolitan trend capital, defining their counterculture creativity in a world of luxury. No matter the course of study, the curriculum places an emphasis on undertaking avant-garde ethics, design research and business innovation. Exploring experimental cut and contemporary streetstyle. The future is on display, to stand out and make a difference. Beauty also comes from the inside, from how and why things are made, from responsible design and business innovation. In other words, how well they incorporate the cardinal concept of the current times: sustainability.

## The essence of luxury in an exclusive atelier

Paris, the luxury hub for fashion, couture and culture, is also home to some of the most important fashion businesses, and that is because the fashion houses of this city are nothing if not forward-thinking. That same progressive attitude is baked into the DNA of the Paris School, where participants will not only learn about the elegance and savoir-faire so closely associated with French fashion and luxury, but also about the fashion branding and business management that have made those businesses the powerhouses they are today. Also, inextricably linked to Paris is the school's emphasis on teaching the haute-couture sartorial approach of ateliers, passing along those skills to the future creators of high contemporary luxury. The experience of fashion here is unique, but what is debated goes on to have global significance, that's just a fait accompli of fashion.

## FASHION DESIGN

Study methods in Fashion Design are rigorously oriented towards professionalism, industry demands, and a fine balance of design functionality and aesthetics. From day one, participants find themselves immersed in the fashion system and fashion design methodology, incorporating key trends with bicultural aesthetics and new consumer voices influencing style. Depending on their chosen level of study, participants work on projects such as an in-depth analysis of clothing or accessories manufacturing, or the language of couture construction versus ready to wear. They progress through various stages of the design process from fashion illustration, pattern making, pattern cutting, construction or prototyping, right through to the finished garment or product. Pathways offer further options to specialise in a chosen area or fashion design profession.

## FASHION STYLING

Style and innovation, responding to new consumer voices and the bicultural world we live in are all key values of Istituto Marangoni study methods, and paramount to the creative world of Fashion Styling. All courses investigate how to make a connection through image, express a story and emotion through style, and propose the most innovative ideas in fashion. Depending on their chosen level of study, participants work on developing their own style portfolio, incorporating photography and a creative vision with visual methods of expression. They investigate new trends in the industry such as artificial intelligence, extended intelligence, and new ways of communicating in a digital age alongside photo shoot preparation and management, photo editing and moving image (multimedia video). Pathways offer further options to specialise in the Fashion Styling profession.

Depending on their chosen level of study, participants work on projects that span residential, commercial or leisure sites, working on the design, or renovation, of the space in question. As well as coordinating furnishings, fixings, lighting and colour, participants are shown how to skilfully mix atmosphere, culture, and a creative vision, and consider new global issues in design wellbeing, the user experience, and sustainability.
